

Reference

Project Partner

**DVG – Dessauer Verkehrs GmbH
Dessau, Germany**

20 buses, 10 trams

Project Highlights

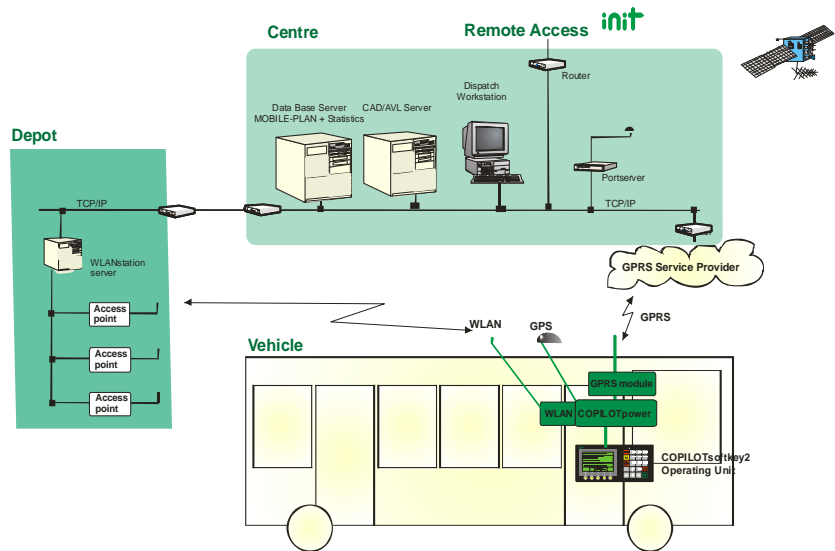

- Intermodal Transport Control System – ITCS (former CAD/AVL)
- Simultaneous integration of trams and buses into the ITCS system
- GIS map display
- Connection protection
- Data radio communication with 1 repeater, 1 data radio channel, 1 voice radio channel
- Real-time passenger information display at transit center and 11 bus stops
- On-board passenger information
- Traffic signal priority via data radio
- Planning software

Future Extensions:

- Wireless LAN
- JAVA technology

BOMBARDIER TRANSPORTATION Niederflerbusse von Bombardier Transportation für Dessau, Deutschland

Dessau is famous for its college of architecture Bauhaus. Bauhaus is the common term for the Staatliches Bauhaus, an art and architecture school in Germany that operated from 1919 to 1933, and for the approach to design that it developed and taught. The most natural meaning for its name (related to the German verb for "build") is Architecture House. Bauhaus style became one of the most influential currents in Modernist architecture.
